"Sometimes I had a dull pain through the small of my back, together with a tired feeling," says C. E. Bradford, prop. laundry, of Main street, Norway.

"I couldn't rest well. When a friend advised me to take Doan's Kidney Pills, I got a supply at Stone's Drug store. After I used two boxes, the pains left and there was a great improvement in every way. I have had no trouble since."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bradford had. Foster-Milburn Co., Props., Buffalo, N. Y.

KIDNEY TROUBLE CAUSES

INTENSE SUFFERING

Sixteen years ago I was taken sick with Kidney trouble and suffered terribly for three months. I did not work during this time and was mostly confined to the bed. After using other remedies I finally tried a bottle of Swamp-Root. I immediately began to feel better, and after using seven fifty-cent bottles, was entirely cured and have had no Kidney trouble since. I can truly say that I owe my good health to Swamp-Root. I will publish this letter for the benefit of other people afflicted as I was with the hope of bringing to their attention this most wonderful remedy.

Yours very truly, Hattie A. Quimby,

36 Spruce St., Waterville, Maine.

State of Maine, Kennebec County, ss

Personally appeared the above named Hattie A. Quimby, who subscribed above statement and made oath that the same is true in substance and in fact.

2 Drops of "GETS-IT," Out Comes the Corn!

It's the World's Wonder; Never Fails.
You'll make 500-600 eyes at your feet,
after you use "GETS-IT," and you'll find
the places where those blisters come
used to be, just as smooth as your cheek.

"How Wide is a 'GETS-IT' Smile? Well, a
Good Deal Over 2 Feet!"

There's no corn or callus among the
millions of feet in the world that "GETS-IT"
will not remove—there's no escape.
"GETS-IT" is the new way, the simple,
common-sense, sure way. It does away
with greasy ointments, salves, pads, cot-

pained pigeon-toe walk of so many corn-
plagued people. All you do is put 2 drops
of "GETS-IT" on the corn, straws it up
and good bye. Nothing else in the world
like "GETS-IT." Millions are using it.
There's no pain, no trouble, no changing
shoes because of corns.
"GETS-IT" is sold by druggists every-

The Quiet Club
Early Thursday afternoon a man with a pair of oxen and dumpcart could be seen coming down our street, the cart finely decorated with evergreen trees and filled with chairs, finally stopped in front of Dudley's store. People said where is "Dell" going?

The cart was quickly filled with women. Then they said, Oh! the Quiet Club. Mrs. Cole celebrate her birthday. They arrived there safe and soon others came by auto and a jolly crowd it was.

The afternoon was spent telling stories, playing progressive whist and—We will call no names but two of the party got very tired walking, changing tables.

Bear Hunt On Pike Hill

It has been commonly reported within the past eight months that a bear lived on Pike's Hill. It has been seen by several persons. The dogs from time to time have chased it over and around the hill and at one time last fall it was chased by the dogs through part of Main street in village. We can place a fight with dogs near the tannery.

It proves to be nothing uncommon for this bear to visit C. W. Horne's and steal the chickens feed and play with Horne's dog, but it is seldom that it will venture far away from the foot of the hill.

Last Tuesday Charlie Tubbs and Charlie Judkins were on Pike's Hill gathering Mayflowers and came in contact with the bear. They heard a strange noise resembling the growl of a dog. Shortly after they ran across a good sized bear. The beast reared upon its haunches and growled savagely.

The boys did not wait for a second invitation to leave. They came to the village, told their story and shortly Pike's Hill was alive with bear hunters. We can mention only a few of the more prominent ones in chase.

The company was under the immediate charge of Captain Charles Sewell whose dog was dismissed from the service on arriving at the house of the hill. The Captain feared the dog might be killed by the bear or mistook for the wild beast and shot by some of the inexperienced riflemen. Capt. Penley in his left hand was properly arming himself and after discharging his dog he stepped into Mr. Geo. Merrill's and borrowed a butcher-knife.

Major General Cole, (commonly called Hod for short) was division commander and carried a rifle, a bowie knife, a wooden revolver and a pocket full of jewelry, which in his haste he forgot to leave at the store.

Musical Director, W. S. Abbott took his accustomed place in the lead armed with a pocket full of sticks and a fence pole. F. C. Briggs, the market man, caught up his knife and steel and a coil of home-made sausages and was the first to reach the summit, expecting to capture the animal and bring meat for sale.

I. N. Small, of clothing real fame, was master of ceremonies, and was a part of the generalissimo and kept well in the rear. Major Al. Buck carried a bear-shooter and Lieutenant Muzzey Judkins was armed with a May basket and a copy of the National Police Gazette.

Col. Albert Whitehouse carried a crockery crate in which to cage the bear if they could but bring him to fight. Julian Brown acted as corporal while Jim True served as orderly. These gentlemen were armed with shoe knives and spruce gum.

Attorney-General C. A. Woodbury brought up the rear with a copy of the pamphlet laws of the State, showing the premium on bears had been repealed and that they would get no State bounty if they succeeded in killing the animal.

This discovery so dampened the ardor of the hunters that they concluded not to molest Bruin. Many of the valiant band gathered bunches of Mayflowers and checkerberry leaves and returned separately to the village on the back street.

The bear has not been killed even though the boys who saw it in the forenoon acted as guides to the invading party.

Note: At this time there was a genuine feeling in the village that the bear lived on the back side of Pike Hill. Notwithstanding the extravagant manner of the report, those who took part in the hunt did so in good faith, expecting to capture the animal.

In the 32 years last past no bear has been killed in this vicinity and at this late day it is construed to be the boys' bluff and a bear. It was probably a coon or hedgehog.

REORGANIZATION OF FAUNCE & SPINNEY SHOE CONCERN

The Lynn papers are publishing the following of the business of the shoe business in that city that may be of interest to the people of Norway.

The reorganization of Faunce & Spinney, shoe manufacturers, under the auspices of Alexander E. Little and George E. Noyes of Manchester, frees the young Mr. Spinney from his manufacturing interests. It is understood that, except in a nominal way, the reorganization marks the withdrawal of the Spinney family from the shoe business.

Frank C. Spinney is treasurer of Faunce & Spinney, Inc., the new style and title of the factory.

George P. Faunce, new president of Faunce & Spinney, Inc., is credited with \$30,000 of preferred stock in the corporation, which was chartered as of May 1.

Its authorized capital is \$200,000 shares at a par value of \$100.00, and divided into 1000 shares common and 1000 shares preferred. The incorporators are: Mr. Faunce, president; Arthur L. Howland, vice-president; Frank C. Spinney, treasurer; Arthur P. Currier, assistant treasurer; H. M. Cushman, clerk; Harry B. Thomas, director. Mr. Spinney has \$1000 in common stock and Mr. Howland one share.

Howland, Currier, Cushman and Thomas are all employees of the A. E. Little Shoe Co. Plant was taken at the following valuation: For merchandise, 500 shares preferred; for lands, pastures, dikes and extras, 250 shares common; trademarks, trade name, etc., 10 shares common, and services, 10 shares common.

Little's statement follows in full: "We are going to interest ourselves in the Faunce & Spinney Co. full of business will go on just as it always has without change. The only difference will be that the word 'incorporated' will be placed beneath the sign. The A. E. Little interests will not control the Faunce & Spinney business. We shall hold stock in the new company in limited amount."

The Spinney interests have ample means to carry on the business. We were asked if we thought it good policy for the concern to go out of business. We do not think it best for the interests of Lynn or for the interests of the shoe business for such a time honored concern as Faunce & Spinney's to liquidate.

"Our Newburyport factory is unaffected by this change."

Your First Choice

---This Month You Can Get It

Hudson will be your first choice in Light Sixes. It is first choice with so many that demand exceeds supply. All last summer there were thousands on our waiting list. But this month we can make prompt deliveries, due to big winter output and trebled capacity.

It is true of the Hudson is true of the car in every class, as you know. The car stands out as first choice finds over-demand.

special steels. It must have a small-bore, high-speed motor, which is very economical. This new-type car has cut tire cost and fuel in two.

The Hudson is the pioneer Light Six. It is by far the leader of this type. It is the lightest of its class.

It is the only one designed by Howard E. Coffin, the creator of the Light Six type. It is a finished product. Four years have been spent in refining every part. Every detail shows it.

It is, above all, the proved Light Six. Over 12,000 cars are now running. Half of them have run for two seasons, on millions of miles of road. Any owner will tell you the car is right. That's a vital fact to know in any new-type car.

For all these reasons, Hudson will be your first choice. Its beauty, its reputation, its records will appeal to you. Find this out, for your own sake, while you can get a car.

MILTON
Amid the Oxford Hills
Situated on the direct stage route between Rumford and Bryant Pond the little plantation of Milton is one of the wide awake communities of Oxford county. The plantation contains many fine farms, especially adapted to the raising of sweet corn and large areas of good timberland. Considering the disadvantage the farmers are under owing to lack of transportation facilities, they have made good progress. The principal industry is the clothing factory of L. M. Mann & Son which employs from 15 to 20 hands. There are also smaller industries and two stores which do a good business. Milton has a bustling village improvement society which is ever working for the welfare of the community. Plans are already under way for the erection of a public hall this season which is much needed. While Milton had a population of only 204 and a valuation of less than \$100,000 according to the last census yet this little community has many possibilities and should the long proposed electric road between Rumford and Bryant Pond be built within a few years as does not seem impossible now, its prosperity would be greatly increased.

EAST STONEHAM

Merton McAlister went to Norway, on Saturday after a load of fish. Mrs. W. P. Small, who has been spending the winter in California, has returned to her home in East Stoneham. Col. H. Littlefield and wife of Bridgeport are stopping at Mrs. Littlefield's for a short time. Her friend, Miss Brown is a guest at Mrs. Littlefield's. Frank McAlister and Errol Barker have been shearing sheep for Ernest Bartlett. Raymond McAlister is painting Chas. Bartlett's buildings. Mrs. J. Bartlett visited her son, Dr. H. L. Bartlett in Norway, last week.

BETHEL
Mrs. O. M. Mason who has spent the winter in California, has returned to Bethel accompanied by her son, L. L. Mason of Portland. Mrs. Emily Felt of Bryant's Pond has been a guest of relatives here. Mr. and Mrs. Guy Morgan, who did not remain at Bethel, are for a time with Mrs. Sidney Jodrey. At the Universalist Parish meeting the following officers were elected: Chairman, E. C. Park; mod., D. Eastings; clerk, E. C. Park; treasurer, M. L. M. Mason; assessors, Seth Walker, M. L. M. Mason, J. S. Hutchins. Delegates to the Convention to be held in June at Auburn are to be elected by the clerk. A. W. Herick has broken ground for a new house on Vernon street. Mary True, who has spent the winter at Cleveland, Ohio and New York, has returned home. Mrs. Mary Howe of Malden, Mass., is visiting her aunt, Mrs. Agnes Stray, who returned this week from California where she spent the winter. Owing to the ill health of E. H. Young Mr. and Mrs. Young were unable to attend the funeral of his sister, Mrs. Bial F. Bradbury at Norway. The body of the infant child of Mr. and Mrs. Elmer Stowell of Yarmouth recently was brought to Bethel. On account of illness in the home of Dr. and Mrs. J. G. Gehring, the reception to the alumni, social club was held at Bethel Inn. Nearly all of the club members were present and many invited guests. After a short musical program, the evening was given over to dancing, concluding at a late hour with a German, in the pretty dresses of the ladies showing to advantage in the figures of this dance. A pleasing feature was the presentation by F. B. Merrill, president of the club, in behalf of the members, to Mrs. Gehring, the club hostess for the year, of an armful of beautiful Jacquenot roses. Dainty refreshments were served in the dining room. At the conclusion of the evening the club sang familiar songs.

Don't forget that you sometimes do harm to your children by doing too much for them. There are things that it is far better to teach the children to do for themselves.

HIRAM.
Mrs. Lois C. Pierce, who has been with her son Allen at Somerville, Mass., has returned to her farm. Mr. Lester Thompson returned from Florida recently and is removing to Calvin F. Clements farm on Hubbard Hill. Mrs. Ruth Gould has recovered from her illness. Ernest Towne of Paris is working for Melville Gould. David Eastman has hired the John H. Spring house of Calvin F. Clements to use for a boarding house, while he operates his mill on Hiram Hill. Ormond S. Spring, Harry and Clarence Kimball went to Redstone, N. H., to work as carpenters. Our schools are flourishing under the care of Mrs. Celia H. Sanborn, the superintendent, and Lizzie M. Clements and Nellie Rankin, who taught here for several years. Benjamin S. Watson of East Hiram is very sick with liver complaint. The memorial window recently placed in the Universalist church by the Universalist clergymen of Maine in honor of Rev. Isaac J. Mead, Jr., its first pastor, presents a fine appearance. George T. Osgood has one of the largest collections of minerals and ancient gems and other relics and curiosities to be found in this region.

Nothing Can Keep Fresh After It's Cut Up

Real tobacco flavor depends upon the leaf being preserved in its natural state, possible only by pressing the leaves into plug form and keeping it in by covering it with a natural leaf wrapper. The natural flavor and strength of tobacco escape when cut or granulated.

Take a Plug of Sickle that is even thoroughly dried out so, that when you whittle it off it crumbles into dust, but it will burn and smoke smooth and cool as it has all of its original tobacco flavor preserved, unevaporated in Plug Form.

Whittling a pipeful is little trouble, amply repaid in both quality and quantity. Try this experiment and judge for yourself.

She Knows What She Wants

The well informed housekeeper insists upon using only a baking powder which is made of cream of tartar. She might read in an advertisement or be told that alum and lime phosphate, which are used as inferior substitutes in cheap baking powders, were all right in the quantities used but she would not buy them or permit them to enter her kitchen. Why?

Because she knows that cream of tartar has always been accepted as the most wholesome agent, with soda, for raising cake and biscuit, and she wants a baking powder made of cream of tartar, like Royal.

This conclusion is the result of unconscious absorption, either her own or her mother's, of the opinions of the highest authorities on hygiene and home cooking.

The prudent housekeeper, when she uses baking powder, reads the names of the ingredients printed on the label. She knows what she wants.

SWART THE FLY

I'm not a-go-in to swart the fly.
The first one that comes sailing by
On my eye and says "swart the fly"
Oh my, I'm really sure that I
Can't do the deed thing.

I'll wait until there's two of three
And they begin to bother me,
Until they make me mad,
The first one says that spring is here.
And hints that summer's drawing near
His coming makes me glad.

That's why I can't make up my mind
To act so cruel and unkind
And swart the little fly.
I never like to act in haste,
And later, there'll be flies to waste.
I'll swart one, bye-and-bye.
—W. GREENLEAF.
